Commissioner Wright's Annual Report Showing Their Wages, and the Number Employed.

WASHINGTON, Feb. 1.—Commissioner John J. Fant, Wright, of the department of labor, has submitted a report which relates entirely to the subject of workingwomen in the cities. Three hundred and forty-two distinct industries in twenty-two representating Thomas Cruse, A. M. Esler. tinct industries in twenty-two representa-tive cities have been investigated. The re-port shows the workingwomen of the great cities are practically girls, the aver-age age in all the cities being 22 years and 7 months. The average period during which women have been engaged in their present occupation is shown to be four years and nine months. Of 16,427 women involved, 440 are engaged in their first trial years and nine months. Of 16,427 women involved, 940 are engaged in their first trial at earning their own living. They are not only supporting themselves, but giving their earnings largely to support others at home. The report shows of 17,326 who reported their condition at the time they commenced work 16,350 were in good health, 883 in fair health and 183 in bad health. The changes in health condition are illustrated by the fact that 14,554 are now in good health. 2,345 are in fair health and 489 are in bad health. The Maxwell Land Grant Case. SANTA FE. N. M., Feb. 1.-The supreme of New Mexico to-day gave a deision in the Maxwell land grant case, affirming the title to that property and dismissing the bill of the government to set aside the patent. The history of the case in brief is as follows: Shortly after the in brief is as follows: Shortly after the bill of the government was brought in Colorado, a similar bill was filed in the United States courts in New Mexico, to be held in abeyance until after the former suit was tried. Judge Brewer dismissed this suit and the supreme court of the United States sustained him. Notwithstanding this the department of justice ordered the New Mexico suit, involving precisely the same evidence and questions of law, to be prosecuted, resulting in its dismissal by the judge of the district court, on the demurrer to which the decision was to-day sustained by the higher court. This is doubtless the closing act by the department of justice, as it is not likely they will wish to appear again before the supreme court of the United States.

Hungarians Object to the Army Bill. PESTH, Feb. 1.-A portion of the popu-

ace is greatly incensed at the passage of the army bill. A great crowd gathered outside the parliament buildings to-day and endeavored to prevent the deputies from entering the chamber, and the hus-

A strong military guard is posted around the parliament buildings and no one is allowed to pass into the chamber except upon convincing proof as to his identity. The boulevards in the vicinity are patrolled by hussars. The members of the opposition in the lower house protested against the presence of troops as preventing free debate and demanded that the chamber adjourn, which was acceded to. Upon the resumption of the sitting the house adopted a resolution offered by the president empowering him to act in council with the authorities to secure access to the building and public tranquility.
